Life Goals Exploration

Answer the questions as best you can with as much detail as you can. When you have answered the questions look through your answers to help you clarify and define your passions, purpose and life goals.

What does fulfillment mean to me?

What would make my life a success?

What do I want to achieve, accomplish?

What would I like to experience?

What am I passionate about? What energizes and excites me? What motivates me?

What are some of my greatest moments of happiness and fulfillment?

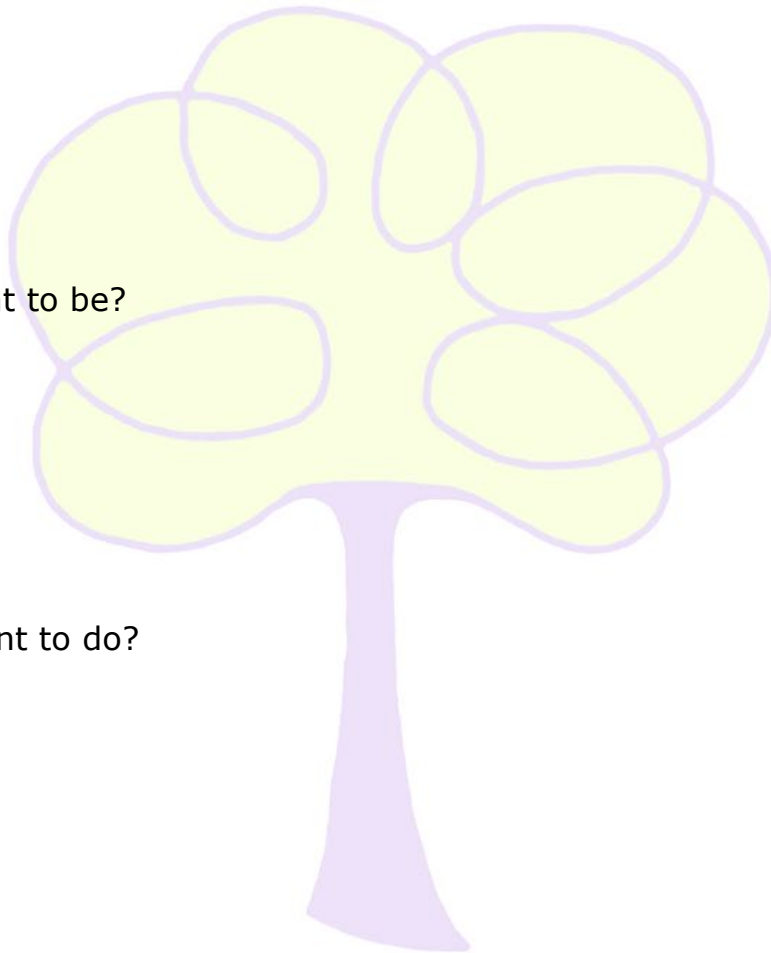

What activities do I most enjoy and find most fulfilling in my personal life? In my professional life?

Who do I want to be?

What do I want to do?

How do I want to live?

How do I want to feel?

How do I want other people to feel?

What am I most happy doing?

What do I look forward to doing?

What would I like to learn more about?

My life isn't a success because...

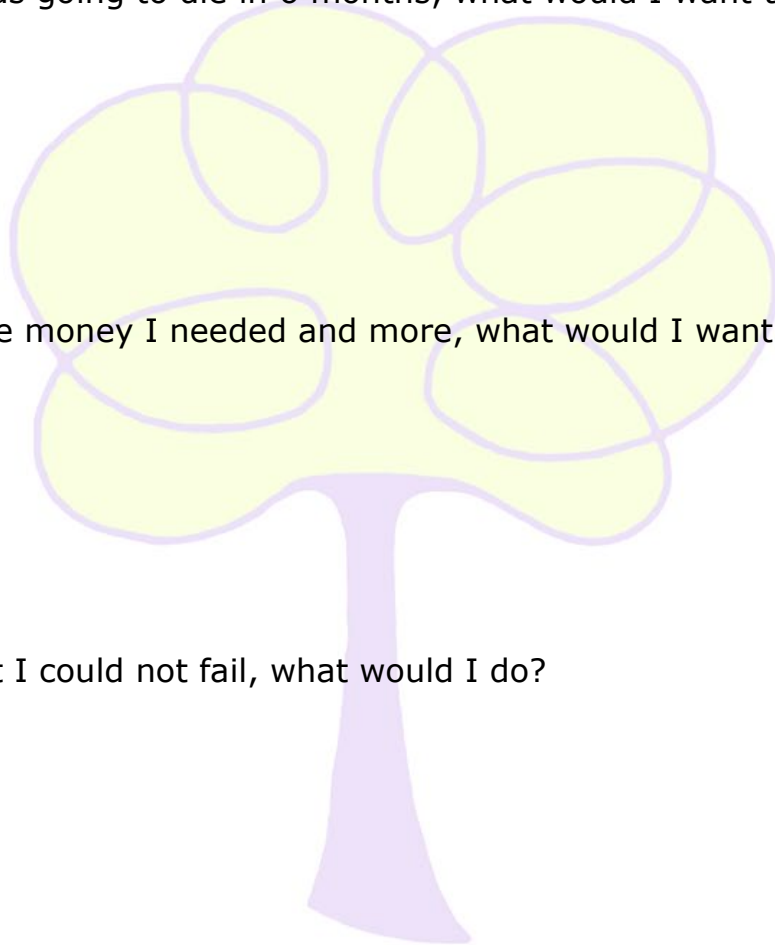

If I knew I was going to die in 6 months, what would I want to do?

If I had all the money I needed and more, what would I want to do?

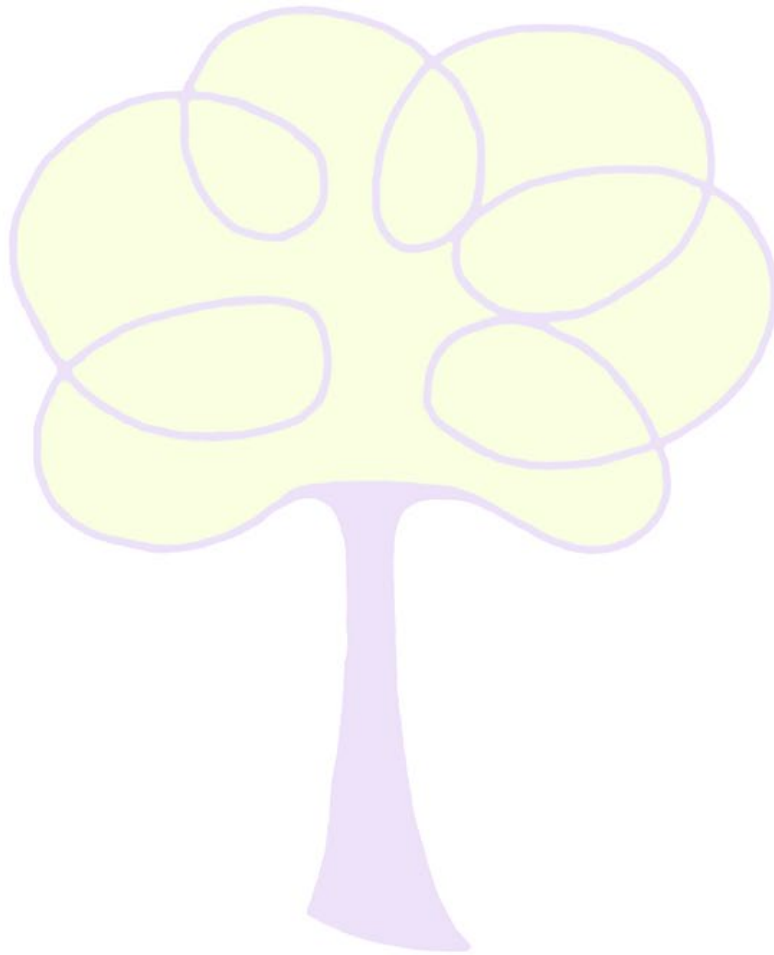

If I knew that I could not fail, what would I do?

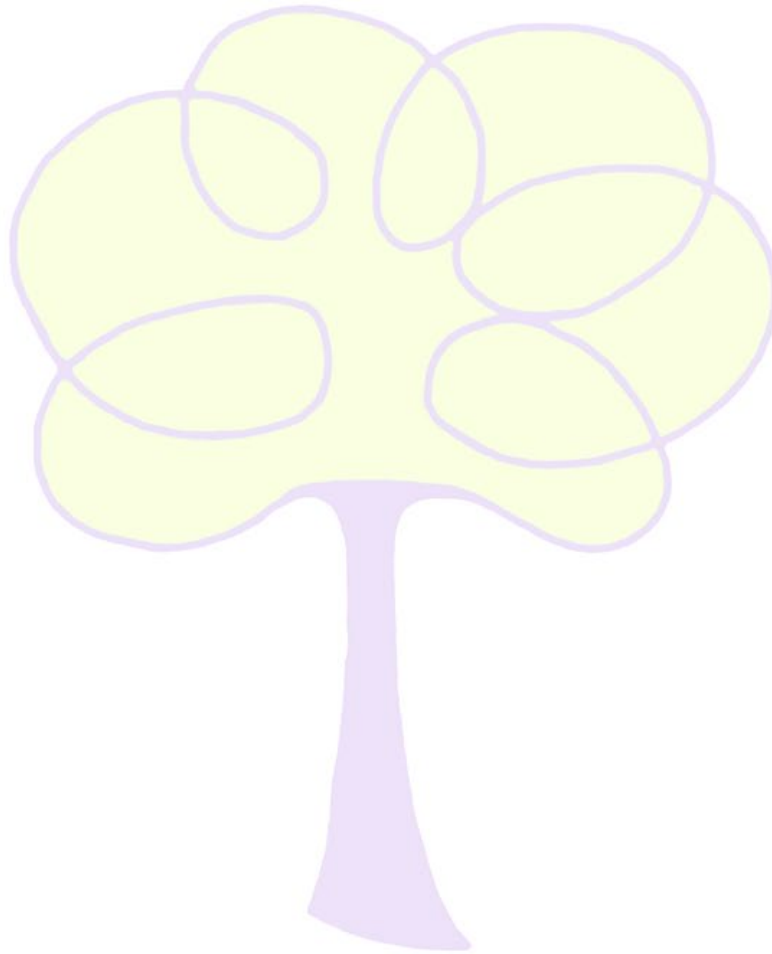

What is my biggest boldest dream?

From your answers can you determine your life goals? What are 3-5 life goals you would like to accomplish or experience that would make you feel your life was a success?
